

**Pathways School Gurgaon**  
**PYP 3**  
**Math Self-help sheet**

Name: \_\_\_\_\_

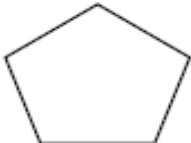

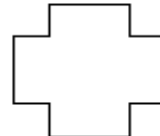

Date: \_\_\_\_\_

**Learning Objective: To identify and describe angles.**

**Task 1: Angle Detective: Identify and classify whether each angle is acute, right, or obtuse**

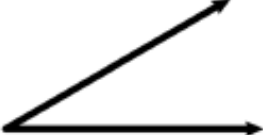

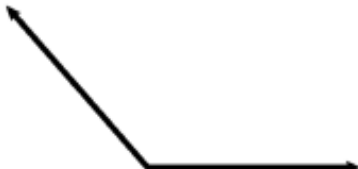

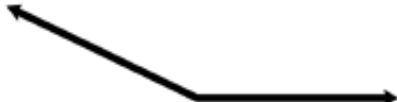

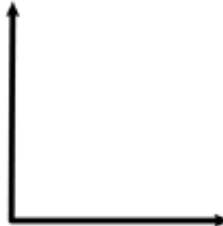

|                                                                                                 |                                                                                                 |                                                                                                   |
